Summer Horizons

Standing by the sea, we are reminded of life's ever-changing horizon. The soft rhythm and calmness of the waves, the salty breeze, and the endless light remind us that summer is a season of openness, of possibility and gentle fresh starts.

The House of Christine collections are created to carry that feeling into your everyday – with light fabrics, fashionable prints, and silhouettes designed to give both comfort and beauty. Each model is made to be your supportive go-to for sunlit days, moments by the water, and the quiet confidence of being yourself.

Choosing headwear for the first time can be overwhelming – “What do I need, how will I look and how will it make me feel?” Headwear comes in many shapes and forms, and your choice should make you look and feel like the person you are by heart. With this you will find the courage to embrace your new everyday life – now with a beautiful and feminine, turban silhouette.

Welcome, dear friend of Christine, to our colourful, high-quality headwear universe. We hope these new collections will encourage you to explore new models and creative stylings – and, most importantly, that they will inspire you to make your turban-story into your own kind of wonderful.

Bamboo Collection

CHRISTINE HEADWEAR

The bamboo-viscose products from Christine Headwear are made in the unique and functional Caretech® Bamboo quality.

Bamboo-viscose fabric has many fantastic features and the soft and comfortable quality is actually used to form the largest part of the Christine Headwear product range.

The Caretech® Bamboo is supremely soft, silky and luxurious to the touch. It is breathable and thermo-regulating so you remain comfortable and dry during both summer and winter temperatures. The fabric is more moisture absorbent than cotton and quickly removes the moisture from the skin and releases it.

Further, the special Caretech® Bamboo products are extremely gentle to wear and highly suitable to use against sensitive skin.

The Christine Headwear bamboo-viscose, Supima cotton, linen and Body Balance products are Oeko-Tex® Standard 100 certified.

The Oeko-Tex certification is your assurance that the headwear product does not contain or give off any harmful substances.

37.5® TECHNOLOGY

Comfort in clothing is dictated by our temperature and the humidity next to our skin, known as our microclimate. When our microclimate balances at 37.5% relative humidity and our core temperature balances at 37.5 degrees, we are in the optimal comfort zone.

37.5® Technology headwear and clothing helps control the core temperature by accelerating the movement of moisture vapour before it can turn to liquid sweat.

If we get warm and damp, the 37.5® products will dry faster – up to 5 times faster than a similar product without 37.5® Technology. And, when moisture is removed from our headwear and clothing, we stay warmer when it's cold and cooler when it's warm.

The active particles used in 37.5® are derived from natural sources such as coconut shells and volcanic minerals. A combination of these special sources and the product features makes this a rather unique and intelligent headwear line.

Find further information about product care and safety on our website.

The Christine Headwear bamboo and Supima fabrics are all labeled with a Caretech® tag.

Caretech® is your assurance that the headwear made from these specific fabrics are not only CE and Oeko-Tex® Standard 100 certified, but also developed and produced especially for the Christine Headwear collections. Caretech® because we believe in providing a high quality, exclusive and conscious headwear collection, for the beautiful you.

We recommend handwashing your new headwear and laying it flat to dry. Do not tumble dry.
